PROFESSIONAL SUMMARY

Detail-oriented MERN Stack Developer with 2+ years of hands-on experience building full-stack web applications using MongoDB, Express.js, React, and Node.js. Proven ability to design and implement responsive, secure, and scalable web solutions with modern authentication systems, RESTful APIs, and intuitive user interfaces. Strong background in industrial engineering bringing analytical problem-solving, process optimization, and project management skills to software development. Passionate about writing clean, maintainable code and continuously learning emerging technologies.

TECHNICAL SKILLS

Frontend	React.js, Redux, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS, Bootstrap, Framer Motion
Backend	Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, OAuth
Database	MongoDB, Mongoose, Firebase Firestore, SQL
Tools & Others	Git, GitHub, Postman, VS Code, npm, Docker (basic), AWS (basic), Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer

December 2025 – Present

Purrfect Software Limited | Savar, Dhaka, Bangladesh

- Develop and maintain responsive web applications using React.js, ensuring cross-browser compatibility and optimal performance
- Collaborate with backend developers to integrate RESTful APIs and implement seamless frontend-backend communication
- Implement modern UI/UX designs using Tailwind CSS and component-based architecture for scalable codebases
- Utilize Git for version control and participate in Agile development workflows including sprint planning and code reviews

Industrial Engineer

2015 – 2023 (8+ years)

Previous Organization (Various) | Bangladesh

- Led cross-functional teams to optimize manufacturing processes, reducing production waste by 15% through data-driven analysis
- Designed and implemented quality control systems and standard operating procedures for operational excellence
- Managed multiple concurrent projects with strict deadlines, demonstrating strong time management and organizational skills
- Developed automated reporting tools using Excel VBA, sparking passion for programming and software development

PROJECTS

Staff Sphere — HR Management Application

React, Firebase, Framer Motion, Node.js, REST API

- Built a fully responsive HR management platform enabling employee management, workflow tracking, and user administration
- Implemented secure Firebase authentication with role-based access control for different user types
- Integrated REST APIs for real-time data synchronization and efficient state management across components
- Deployed application with CI/CD pipeline ensuring seamless updates and zero-downtime deployments

PlantaCare — Smart Plant Care Management System

React, React Router, Tailwind CSS, Firebase

- ▶ Developed an intuitive plant care tracking system allowing users to monitor plant health and manage care schedules
- ▶ Implemented responsive design principles ensuring seamless user experience across mobile, tablet, and desktop devices
- ▶ Built real-time data persistence using Firebase Firestore with offline support capabilities
- ▶ Created interactive UI components with smooth animations for enhanced user engagement

Live: <https://plant-tracker-web-app-c73a3.web.app/> | Repo: <https://github.com/nazmul09ipe/plantacare-app-client-side>

HappenHub — Event Explorer & Ticket Management System

React, React Router, Tailwind CSS, Firebase

- ▶ Engineered a full-featured event discovery platform with secure ticket booking and user authentication
- ▶ Implemented dynamic routing and protected routes for authenticated vs. public user experiences
- ▶ Designed and developed a clean, modern UI with Tailwind CSS following mobile-first design principles
- ▶ Integrated Firebase backend services for user management, data storage, and deployment hosting

EDUCATION

B.Sc in Industrial and Production Engineering

2015

Rajshahi University of Engineering and Technology (RUET)

- ▶ Complete Web Development Course — Level 1 — Programming Hero (Completed)
- ▶ Next Level Programming Course — Level 2 (MERN Stack) — Programming Hero (In Progress)

SOFT SKILLS

Problem-Solving & Analytical Thinking • Team Collaboration & Communication • Adaptability & Quick Learner • Time Management & Multitasking • Attention to Detail • Self-Motivated & Continuous Learner
